Inventory In-Charge | Web Developer | Tech Enthusiast  
Tubli, Capital Governorate, Bahrain

## Summary

I am currently an Inventory In-Charge and Service Crew Member at Jasmi's Corporation, responsible for customer service, inventory management, and food preparation. Before joining Jasmi's in November 2023, I worked over three years as a Junior Web Developer at Grand Wynn Group of Companies, managing company websites.

My passion for technology and web development is backed by hands-on experience building projects with PHP, JavaScript, JSON, and MySQL. I also completed a Drupal Developer internship at Inspiral Creative Co. Ltd and taught robotics programming for 10 months at MI Robotics.

I hold two Level-5 Diplomas in Advanced Computing and Information Technology. I am eager to keep growing in the fields of technology, web development, and operations management.

---
